- (b) The above information is, to the best of my knowledge and belief, correct

Signed at _____ this _____ day of _____, _____

For and on behalf of the Insured: _____

Capacity: _____

INITIAL CLAIMS NOTIFICATION FORM

NOTES & INFORMATION

The purpose of the information contained in this Initial Claims Notification Form is to:-

- (a) enable Abelard to provide the Insured with efficient services in the processing and settlement, if applicable, of the claim. Delays in the provision of information will delay the progress of the claim and lead to frustrations on the part of all parties involved. In this respect, therefore, the Insured's attention is drawn to the Claims Notification Condition of the Policy and any delay in the provision of information may result in breach of Policy Conditions.
- (b) provide the Insurers with sufficient information to enable them to make an informed decision as to whether an Assessor or Attorney, or both, should be appointed to investigate/defend any claim made, or which may be anticipated from the Third Party. If the Excess applicable to the circumstances leading to the claim is deemed to be "Costs Inclusive", the costs of such Assessor and/or Attorney will be payable by the Insured in terms of the Excess.

It is imperative, therefore, that:-

- 1. The Notification Form is completed in full and all required information be submitted to Abelard as soon as possible.
- 2. All information and documentation requested by Insurers during the progress of the claim, until finalization, be provided as soon as practicable following requests therefore.

Where the applicable Excess is deemed to be "Costs Inclusive", and Insurers have incurred any expense, which forms the subject of the Excess, Insurers will require immediate reimbursement of such expenditure. Failure by the Insured to honour its obligations in terms of a "Costs Inclusive" Excess, may result in the following:-

- (a) the cancellation, subject to the Cancellation Condition, of any current insurance Policy in force with Abelard. The Insured will be required, in terms of normal practice of Insurers, to disclose such cancellation to all other Insurers with whom it effects any insurance cover
- (b) the institution by Insurers of all legal steps necessary to recover such expenditure from the Insured, including the costs of such litigation
- (c) the listing of the outstanding debt with the ITC, until the outstanding debt has been liquidated.

We consider the insurance to be a partnership between Insurers and the Insured and would request the full co-operation of the Insured in assisting us to bring any claim to satisfactory and early finalization.
